

Dr. Rajesh Sathiyamoorthy, IIT Kanpur

From Uncontrolled Dump to Engineered Landfill

Definitions (from World bank technical paper no.426.)

- **Dump** = uncontrolled dump causing hazards to human and environment
- **Controlled Landfill** = dump with covering of waste
- **Engineered Landfill** = controlled landfill + engineered measures to limit impact
- **Regulated engineered landfill / Sanitary Landfill** = engineered landfill + landfill gas extraction + groundwater monitoring + highly trained staff + water treatment facility + ...
