Weather at Kanpur

The weather at Kanpur in the month of January is cold, especially at night time, with temperatures ranging from 8°C and 23°C. Please do not forget to pack warm clothes. Mild rain can also be expected sometimes.

How to reach

Kanpur is a major city of Uttar Pradesh is well-connected by rail & road to all the parts of the country. If the participants are coming by air to Kanpur, then they are advised to come at Lucknow Airport, which is 90 km from IIT, Kanpur.

The railway station is at a distance of about 15 km from the IITK campus. A regular auto-rickshaw takes (about Rs. 200) and taxi service (about Rs. 350) from the station are available. Interested participants are advised to make railway reservation well in advance.

If you need more information please contact the coordinator. Information about the Institute as well as the SIDBI Innovation and Incubation Center is available at our website www.iitk.ac.in/siic/d/
Background

For an entrepreneurship culture to flourish in the country, it is vital to establish a vibrant innovation and entrepreneurship ecosystem and nudge the mind-set in academic institutions, especially those imparting higher technical education. Providing the right and timely education in entrepreneurship can bring about a paradigm shift in the awareness quotient and societal attitude.

This five day course aims at making faculty members, prospective entrepreneurs, incubation center managers, and other participants, acquainted with the necessary elements which go into creating the bread-board for innovation and entrepreneurship eco-system, especially in academic institutions.

The course will acquaint the participants with the existing policies, infrastructure, facilities, and systems which have been created at IIT Kanpur, under the aegis of SIDBI innovation and Incubation Center (SIIC).

The participants will be familiarized to the challenges faced by potential entrepreneurs in converting their ideas to viable businesses. Entrepreneurs from different domains will be invited to share their success stories and challenges faced by them.

The training will also include the details of legal compliances for company incorporation and financial issues related to startup companies. A separate interactive module focusing on the behavioral and interpersonal skill-set requirements is also planned.

This course is offered under the Continuing Education Program of IIT Kanpur and is sponsored by the Quality Improvement Program. The course details are given overleaf.
