Homework No. 9

Perspective Views

Question 1

Draw the *axonometric* perspective view with *two* vanishing points of the object whose isometric sketch is shown in Figure 1. The sight point is at point A, which is x=-25m, y=-25m, z=50m from the front corner of the object. The viewing plane passes through the front corner of the object. All dimensions are in meters. Mention the scale of your view.
