

### **Updated Guidelines for Part-2 Presentations**

- a) Each group need to execute and submit their implemented code along with the report on 8-Apr-2018 to their respective TA as per code submission schedule.
- b) The report should mainly contain the following information:
  1. Description of all the functions, modules and MATLAB files used in simulating the assigned term paper
  2. Steps of executions (mandatory)
  3. Details of Experimental setup
  4. Obtained results
  5. Attach a publish report generated from MATLAB.
- c) Also, now each group need to give a final presentation of their term paper describing the objective, system model, experiment setup along with the obtained results.
- d) Prepare your presentation either using latex or in MS PowerPoint and upload the same on the server, using the upload link available on course website, at least 1 day prior to your presentation.
- e) All the presentations will be conducted on 10th and 11th April from 12:00 PM to 1:45 PM in L-13 (see presentation schedule).
- f) Each group will be given 10 minutes to present their content (with 2 minutes of buffer, if required).
- g) It is mandatory for all student to be present on the day of presentation irrespective of whether you have your presentation or not. Attendance is must for these 2 days and will account for some marks in term project, individually.
