Week 1

- Introduction
- How to Learn in the Course
- Introduction
- Assignment1

Lecture videos

Lecture slides (pdf)

Lecture slides (pdf), assignments, and other files

Assignments:

- One assignment per week consisting of multiple type questions with one correct answer will be uploaded inside the Mookit portal in pdf formats.
- They have to be answered inside the Mookit portal under the section "Assignments".
- Submission of assignments is compulsory, as required by the Ministry.
- All questions have only one correct answer which is to be checked mark inside the portal. The assignments have to be answered in the given time framework and the marks are recorded automatically without any human intervention. It is not possible to entertain any request for late submission.
- All the assignments will be released on every Monday and have to be submitted within the same week by Saturday.
- Announcement of answers of the assignment questions will be on every Sunday
- The assignments in every week will be available with the first lecture slides of the week.

The image displays two screenshots from the Mookit portal. The top screenshot shows the course page for "Handling Large Scale Data & Data Analysis Using R - 1" with 1 user online. The "Week 1" section is expanded, showing "Introduction" and "How to Learn in the Course" items. A red circle highlights a PDF icon next to the "Introduction" item, with a red arrow pointing to a zoomed-in view of the "Available Supplements" window. This window lists two PDF files: "RCourse-Lecture1-WhyRandInstallationProcedure - Copy.pdf" (labeled "Lecture slide pdf") and "Assignment1_L1-L20.pdf" (labeled "Weekly_Assignment file").

Assignment1
 Submission Deadline
 7/11/2020 23:59

Instructions
 Timed: No
 Please do not open the quiz in multiple tabs/browsers. All your responses may not be recorded.
 Quiz Opens: 1/11/2020 00:00

This is only a quiz preview. As an instructor, only you can preview the quiz, not students.

Assignment (Quiz) submission options (MCQ) link will be start and close within the given timings.

Discussion and Queries:

- All the queries should be raised only under the "Forum" section inside the Mookit. Such activities will also be recorded.
- Any participant can also answer anyone's question. This is encouraged to have a better learning.
- As soon as a question is raised on the forum, an email will be generated automatically and sent to all the participants and instructor.
